

EXPERIMENTA: RELAXED SCREENING

Short Films by Eden and Andrew Kötting

Working across features, animations, VR, performance and music, Andrew Kötting has been creating in an open, exploratory way with friends and family members for years. In part two of this focus we present richly imaginative films – made with Eden Kötting – that engage deeply with the visionary process and tradition, animating her drawings and paintings to create new, bright, fantastical worlds and landscapes.

The programme includes the rarely-seen 35mm print of *Mapping Perception*, a multi-media art-science project about the limits of human perception and how we see and perceive difference. Afterwards, Andrew will join Whitechapel Gallery film curator Gareth Evans, in an extended conversation about *Gallivant*, biography, collaboration, journeys and surreal melancholia.
